

NUMBERS BINGO!

Ages 4+ 2-6 Players

INCLUDES

- 6 double-sided playing boards
- 20 number tokens
- 72 plastic chips
- Drawstring bag

OBJECT

To be the first player to cover four squares in one row or column.

SET UP

- Punch out the number tokens and put them in the token bag.
- Give one board and a handful of chips to each player.
- Decide who will be the “caller” for the game. *The caller is the person who pulls the tokens from the bag and calls out the numbers. The caller can play the game; but doesn't have to play. Players can take the turns being the caller.*

HOW TO PLAY

Without looking, the caller reaches into the bag and pulls out one token. The caller announces the number on the token and shows the other players the number. All players cover a square with the corresponding number of objects. Players may have more than one place to play; in this case a player can choose which objects to cover with their chip. There are 2 of each number in the bag.

HOW TO WIN

The first player to fill one row or column with chips shouts “Bingo!” and is the winner.

OTHER WAYS TO PLAY!

■ Cooperative Bingo

All players play one board together.
A great game for younger players!

■ Everyone Wins Bingo

All players continue playing until each completes one row or column on their board.

■ No Peek Bingo

The caller calls the number without showing the other players the number. Can you find the number without seeing them?

■ Finger Bingo

Without showing the number, the caller holds up the same number of fingers and the players find that matching number of objects on their board.

■ Full Card Bingo

The first player to place a chip on EVERY space on their board wins.

■ Frame Bingo

The first player to place a chip on each outside space on the board wins.

■ Four Corners Bingo

The first player to place a chip on the four corner spaces of their board wins.

LEARN THROUGH PLAY

Numbers Bingo is a playful teaching tool to help children learn their numbers. Identifying each number is the first step to counting. When a child can recognize and name numbers, they have an easier time making connections between those numbers and how to count. Encourage your child's counting growth by playing Numbers Bingo and its many variations!

WARNING:
CHOKING HAZARD—Small parts.
Not for children under 3 yrs.
